June 21st Walter Scott's Memorial Fun Fly Conway
June 21st and 22nd Spa City Hot Springs Fun Fly

Old Business

SMALL update 60 registered pilots, about 90 to 95 percent was electric powered, although there was a few rubber powered free flights. Only one spectacular crash and it was our own Ron S and his Powerhouse. Alas it is no more.

Field is looking good. We have a control line circle now and it will handle up to 65 foot line as long as you stay in the center.

Our Club Cub Day we have the burgers and the dogs, we will get sodas and water and chips, Ron will bring the tickets for the raffle prizes. The prizes will be drawn after the 1:30 cub only fly.

2008 WATTOBER FEST still on green for go
Steve and Chris will cuss and discuss the save the date card.

Mark will fax the flyer to GP and HH

Chris will put a flyer on our web site telling all about our WATTOBERFEST.

Thanks to Randy for the fencing he donated to us so we could make a rake to smooth out part of the field it worked well.

NEW Business

TAKE YOUR TRASH HOME.

Safety is everyone's concern so keep an EYE on yourself and others and if you see something that is dangerous or potentially hazardous say something.

Meeting adjourned at 7:50

Show and Tell

Chris showed a Skydrill a kit designed by Steve Adams. Chris built it and it looks like a small kaos. Mark test flew it cause it was his and it flew well. Originally it was designed for an .049 or .061 but Mark wanted to electrify it and Chris did a good job.

Mark showed a Radical RC stik, very small one 4 channel with an Eflite 250 motor no flight data yet.

Mark also showed a Gee Bee Tiger Moth it has a Saito 30 and is a 4 channel plane only slight modification like no rubber bands, and separate servos for the ailerons.

Covered in cub yellow and black solartex fabric.

No flight data yet.

No Night Flying but Steve brought a plane.
