NEW Business

Steve is still looking into the cost of a larger add in the AMA magazine.
He will also contact a couple of Magazines to see if they will donate add space for the fun fly.

We discussed using the west end of the pit area (other side of the shed) for control line flying and

3d hovering. Mark will talk to Ronnie about us cutting down some of the bushes.
We will put up two temporary flight stations for the area.
We will also add one more flight station to the main runway and allow 6 planes in the air.

We will take a closer look at the field and talk about trying to level it some more.

Many ideas were brought up.

We will also look at the road coming into the field to determine what needs to be done to get it ready, as well as putting up signs.

We talked about the man who build a full scale runway in Pinnacle Valley but got turned down by the courts due to neighbors complaints. We might approach the owner about flying R/C but we need to wait until the dust settles. He has appealed the ruling so we tabled the discussion.

TAKE YOUR TRASH HOME.

Safety is everyone's concern so keep an EYE on yourself and others and if you see something that is dangerous or potentially hazardous say something.
